OUTBACK SOLAR PUMPS

5-WAY-TEE

25mm (1") Brass 5-Way Pump Tee with ¼" Ports

The OUTBACK 25mm Brass 5-Way Pump Tee is a durable, compact fitting designed to simplify automatic water pressure systems. Manufactured from solid brass, it connects pumps, pressure tanks, pressure switches and pressure gauges through a single fitting. Ideal for rural water systems, irrigation and pump installations requiring secure, corrosion-resistant connections.
