OUTBACK SOLAR PUMPS

AUTOMATE

25mm Constant Pressure Headworks Kit

The OUTBACK AutoMate Solar headworks kit provides automatic pressure-controlled water supply for compatible solar bore pumps. Featuring a reverse-acting pressure switch, 8L pressure tank and durable brass fittings, it ensures reliable water delivery while reducing pump cycling. Ideal for rural and remote water systems.

HIGH FLOW
Up to 80 L/min
25mm system

COMPLETE KIT
Matched components
Installer ready

LESS CYCLING
8L pressure tank
Reduced pump wear

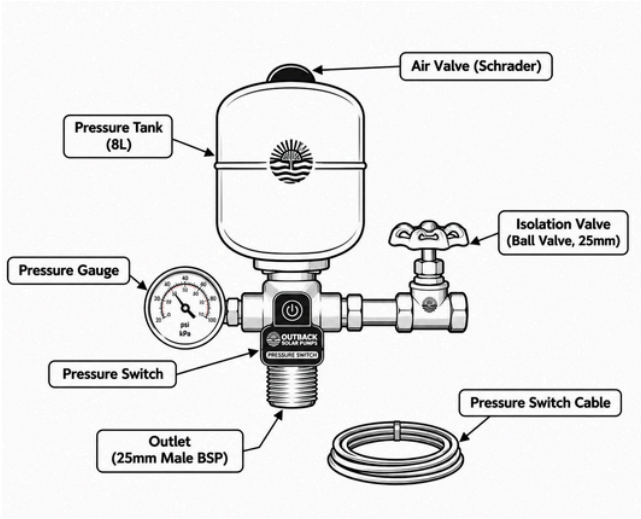
PRODUCT OVERVIEW



SPECIFICATIONS

Model	AutoMate
SKU	KIT-AUTOMATE-1
Product Type	Pressure Headworks Kit
System Type	Automatic Pressure Control
Nominal Pipe Size	25mm (1")
Pressure Control	Reverse-Acting Pressure Switch
Pressure Switch Range	2.5–4.0 bar*
Pressure Tank Capacity	8L
Pressure Tank Rating	PN10
Pressure Gauge Range	0–1000 kPa
Cable Length	10m
Installation Type	New & Existing Systems
Warranty	24 months

KEY FEATURES

- Automatic pressure-controlled pump operation.
- 8L pressure tank reduces pump cycling.
- Complete kit with brass fittings and controls.
- Ideal for remote water supply systems.

RECOMMENDED APPLICATIONS

Solar pump tank filling

Remote water transfer

Livestock trough filling

Remote locations

Ideal for rural and remote solar pumping systems requiring reliable on-demand water pressure, automatic operation and fewer pump restarts.
